RE: FW: District Approval of EOR "Accretion" Projects Without Aquifer Exemptions	01/31/2013 10:19 AM

Item Body

Hi again David, Vay just informed me that he will contact Terri in your office to complete the set up for tomorrow's meeting. We're good! Thanks anyway.

Hi David,

Vay is asking about the I.P. Address for tomorrow's meeting... Might you be able to assist him?

If you have any questions or concerns, please feel free to email him (cc'd above).

Thank you!

Good morning David,

According to our IT guys, all we need from you is an I.P. Address so that we can connect with you.

Thanks,
Heidi

Heidi,

Please get back to David with the details on the video link.

Thanks all.

Hi Tim,

I was wondering if you have an agenda for our meeting this Friday. Also, George and Michele Dermer will be there in person, but I am going to have to join the meeting by video conference if that is possible. I know George has had some discussion with your folks about establishing a video link, so hopefully we can work that out. I had intended to be there myself, but a family matter arose which requires me to stay in town.

We're looking forward to a good discussion.

Thanks,
David

David,

I wanted to share this legal interpretation with you. We are not in agreement with Mr. Candy.

If you want to discuss this topic, let me know.

I look forward to our February meeting. Tim

Hello Tim,

Per my conversation with Justin Turner this past Tuesday, I'm forwarding you and your staff a substantially revised version of the previous letter I sent to Jerry Salera on December 20, 2012, concerning legal authority supporting District approval of EOR "accretion" or "step-out" projects without requiring aquifer exemptions. The attached letter I believe does a much better job identifying and articulating the key issues which I'd like the Division to consider. If you

have any questions regarding the foregoing, or desire further clarification on a particular issue, please do not hesitate to call. Otherwise, I look forward to hearing the Division's thoughts and comments.

Best regards,

Peter L. Candy
